

WHO I'M LOOKING FOR

A team of **smart thinkers**. Folks who get goosebumps when they see a great website that **works so beautifully** that it just feels natural. They love websites that are **responsive, flexible, and look amazing in every browser and any screen size**. A team that would like an energetic, inspired web-nerd like myself to build high quality websites in **sultry** technologies such as **jQuery, html5, css3**, who uses **ajax** like a champ, and fits front-end code into **PHP, Ruby, Python, or Java**-backed systems like a glove.

MY SKILLS

Based on a 1 (familiar) to 5 (expert)  R.D.R. (robot dude rating).

Semantic HTML	    
CSS/CSS3	    
HTML5	   
SASS/LESS	    
Javascript (Vanilla)	   
jQuery	    
Backbone.js	 
Bootstrapp'n	    
JS Templating (Handlebars, etc)	   
Django (Jinja) Templating	    
Responsive Design	   
Mobile Web Design	   
CMS Design & Dev	   
Python Dev	 
Ruby on Rails Dev	  
UI/UX Design & Concepts	    
Git, SVN, CVS savvy	   
Cooking	
Using Anything Adobe	    

A LITTLE ABOUT ME

I just might be one of those magical unicorns you heard about. That kind of front-end developer that knows her way around a console but also designs with the user experience first in her mind. I want to focus on the things that are valuable to me - **building websites with exceptional quality and deeply understanding the people who use my sites & web apps.**

I love **responsive design** and building web apps with **jQuery, Backbone, and sometimes AngularJS**. When I'm not building websites for awesome people, I'm usually creating art as a digital illustrator, swinging kettlebells, or playing online games with my hubby.

Philadelphia, PA
Senior Developer
Nov 2010 - Sept 2011

Design-focused usability firm where I hybrid as a designer/developer and work with huge clients.

accolades for my work & ethic

7 people have recommended Kristi

"From the first day I worked with her, I have been pleased to have Kristi assigned to my accounts. In addition to being able to communicate effectively with clients, Kristi's design background enables her to successfully and effectively work through development constraints with the designers whose work she's building. Kristi has a positive, patient demeanor that makes her a pleasure to work with."

— **Patricia Sullivan**, *Client Program Manager, Electronic Ink*, worked with Kristi at Electronic Ink

"Kristi is as bright and passionate a web developer as I have ever come across in my career. Her drive, insatiable appetite for knowledge, and broad skill set consistently help her produce outstanding work. In addition to being a greatly skilled developer, Kristi's design prowess is a huge asset, as she is able to contribute during the entire process of a project. While her considerable front-end expertise leaves nothing to be desired, she is more than reliable on the server-side as well. Last but not least, Kristi's client-facing skills are worthy of distinction, especially in explaining highly technical concepts to not-so-technical people. I enthusiastically endorse Kristi for any position in the web development field."

— **Craig Willard**, *Senior Interactive Technologist, Electronic Ink*, worked directly with Kristi at Electronic Ink

"Amazing javascript/css/html skills, great person/developer to work with =)"

— **Roman Vidyayev**, *Web Developer, TrueAction, A GSI Commerce Company*, worked directly with Kristi at TrueAction, A GSI Commerce Company

"Kristi can easily dive into situations, make sense of things, and guide others. Her technical understanding and expertise as well as attention to detail, consistency and creative thinking skills are something you find in very few people. I worked very closely with Kristi for more than six months developing on a brand new platform as new employees. Without Kristi, I do not believe the project would have had the success it had."

— **Nyssa Capaul**, *Web Developer, True Action*, worked directly with Kristi at TrueAction, A GSI Commerce Company

"I loved working with Kristi at GSI she is a super on point Web Developer with her finger on the pulse of what's new and exciting in the internet world! If your looking for an incredible person to work with on projects, I highly recommend Kristi!"

— **Robert Fauver**, *Web Developer at True Action, True Action*, worked directly with Kristi at TrueAction, A

"I had the opportunity to place Kristi in one of my top tier clients, she was not only professional along the way but did a great job while on-site. From a recruiter's standpoint she was a pleasure to work with; she had kept an open line of communication throughout the process and would do whatever was needed prior to starting in a timely manner. I would highly recommend Kristi and it would be a pleasure to work with her again in the future."

— **Nick Conte**, was Kristi's client

"Kristi is a very skilled developer and her work ethic is second to none. For one project we worked on together I was shipped out to another project. Kristi would always be the first one to take over for the work they left behind. She is a good personal friend as well."

— **Chuck Hriczko**, *Web Developer, TrueAction, A GSI Commerce Company*, worked directly with Kristi at TrueAction, A GSI Commerce Company
